Batch Update

Before a Batch Update, always Backup the project being Updated

To carry out a Batch Update:

Select the Area to be Updated, Use the Fares Update calculator to alter the fare values in the list, All values in the list must have a value (they can remain unchanged), Click the Single Right Chevron to place them in the Selected Areas list.

(The above can be repeated for several Areas)

Click the Execute Batch Update to complete the Batch Update

(You can also Select or De-select any Service or Area from the Update)

Tip : Practice on a redundant Project, where mistakes have no impact

Fares Update

The screenshot shows a dialog box titled "Fares Update". It has a green header bar. Below the header, there are three input fields: "Low Fare" with a "Min" button, "High Fare" with a "Max" button, and "Increase" with an empty text box. To the right of these fields are three checkboxes: "Rounded", "Decrease", and "Percentage". Further right are two radio buttons labeled "5" and "10". Below these are two more checkboxes: "Up" and "Down". At the bottom of the dialog are three buttons: "Update", "Clear", and "All Areas".

Enter the Lowest Fare and the Highest Fare you wish to Update
then enter the amount of Increase
(Increase can be up to one decimal place when Percentage is ticked)

Click to execute the Update

Click to Clear all values in the Update Screen

Tick to Round after Calculation

Tick to decrease

Tick to Update by Percentage (not value)

Rounded to nearest 5 or 10

Rounded Up or Down

Click to Exit the Update Screen
